iMac: Downloads Folder Disappeared From Dock Nov 28, 2010 I am a Mac beginner There are 3 folders on the right hand side of the dock.. Can you right click the messed up icon?/under 'Display as', make sure it's set to 'Folder' and not 'stack'.. Applications, Documents and Downloads My download folder had disappeared, so I dragged one called My downloads from my documents, and it sits there ok, but it is shown as a white folder, instead of blue like the other two folders.. ' Edit: if that doesn't work, try opening terminal (search for it in spotlight if you're unfamiliar), and typing 'killall Dock' (without the quotes).. Aug 24, 2010 Thrilled with the new iMac I lost 'Downloads' from the dock, a very interesting thing on this computer and trying to figure out how to get it back.. When opened, the stack shows only PDFs What happened?How do I restore it to a regular Downloads folder in the dock? Mar 2, 2012 My Application folder has disappeared from the Dock.. How do I restore this aspect? Apr 12, 2009 I'm aware I can alter it for Firefox and Safari, but how do I point the 'downloads' folder on the dock to the new location? Or is it a simple matter of drag and drop from the new location onto the dock and remove the old one?? Didn't want to experiment in case its a 'special' folder.. dock pls! And then restart However, doing this will return the dock to the default state when you first got your mac.
